企业简介

台州市黄岩精远塑料模具厂是一家专业生产注塑模具的厂家,其座落在“中国模具之乡”-黄岩,其范围有:摩托车模具,沙滩车模具,汽车配件模具,家用电器模具等等。

本厂设备先进,技术力量雄厚,为中国一汽集团,长安福特,海南马自达等公司生产保险杠,仪表台等大型塑料模具。同时,也为重庆嘉陵集团,建设集团生产摩托车塑料模具。

多年的模具实际经验及雄厚的技术队伍,奠定了为客户提供价格适中,高质量模具的能力,使得精远模具趋于全球化,模具出口至许多国家,如韩国,乌兹别克斯坦,巴基斯坦,印度,巴西等等。模具质量深受国内外客户的信赖与好评。

“时刻对产品负责,永远让客户满意”,这是台州市黄岩精远塑料模具厂全厂的服务宗旨。热忱欢迎国内外客户及外贸公司的莅临参观,期待与您的真诚合作!

Brief Introduction

Taizhou Huangyan Jingyuan Plastic Mould Factory is a professional injection mould manufacturer, which is located in Huangyan, it is famous as “Mould Town”. Its range: Motorcycle mould, ATV mould, Auto parts mould, House appliance mould, Commodity mould and so on.

With various precise equipments and a strong technologied team, we have been producing automobile bumper, instrument large-scale plastic moulds for China FAW Group, Ford, Mazda etc. Mean while, we have been producing motorcycle plastic moulds for Jialing Group, Construction Group and so on.

Our experience and technology enable us to offer quality moulds at competitive price. Therefore, it makes Jingyuan Mould become global. Moulds are exported to many foreign countries, as Korea, Uzbekistan, India, Brazil and so on. The moulds have won all clients trust and commend “Responsible for products everytime, satisfy clients’ requires forever” is Jingyuan Mould’s service Tenet.

Welcome all clients and Foreign Trade Company to visit our factory, sincerely looking forward to cooperating with you, we guarantee to become your ideal mould provider.

因为专注 所以专业

Expert from concerns

■ 强有力的产品设计研发
 Powerful design & research capability

○ 我厂较早的导入CAD/CAM/CAE一体化技术，拥有UG等世界领先的CAD/CAM/CAE软件，能够实现从产品构想-办法样品或点群数据到模具及试制生产的一站式服务。

○ 我厂全面采用设计评审制度，对设计的输入、输出均进行严格的评审和控制，确保模具产品数据形成阶段100%验证控制。

- Stars mould introduced the integrated technology of CAD/CAM/CAE pretty early and possesses the world-advanced CAD/CAM/CAE sorts, for instance, GU. Its one-station system service makes it a reality to start project from concept, sample/data points by reverse engineering, till perfect moulds/dies and trial batch production.
- Stars mould introduces overall design examination and appraisal system. Design output and in put are under rigorous control and put through strict examination and appraisal. Thus, the 100% verifying and control on the product-data-shaping phase are ensured.
